<b>Research Area</b>	Infrastructure Maintenance, Building Information Modelling, Management Information System			

**Brief introduction of your research experience:**

Dr. Zul-atfi is working as a senior lecturer at Universiti Malaysia Perlis (UniMAP) under the Civil Engineering Division, School of Environmental Engineering. He has been actively conducting research in the field of infrastructure maintenance in the national and international level. His experience in precast infrastructure industry and Building Information Modelling (BIM) modeller is essential to link academic research with industrial practicality. His expertise in defect diagnosis and Computerised Maintenance Management System (CMMS) – both linked to precast concrete infrastructure respectively, meanwhile his research with industrial partners won several national awards in the areas of Construction Innovation and Technology.
